Professional profile

Full stack developer and web designer, with university education completed as a textile designer. Experience working with React, Redux, Node JS, Javascript, Express, Sequelize, HTML and Css. I am a creative and organized person, committed to constant learning and professional growth. I work in a team and I have knowledge of the SCRUM methodology.

Experience

- ▶ Plantango app, final group project for Soy Henry. Web application that informs about plants in Argentina and Ecommerce. In this project I worked both on the back with Node JS, Express and Sequelize creating routes that connected to the database, and on the front creating different components using React and Redux.
- ▶ Solo project I'm Henry. Web application to obtain information about recipes by calling an api. Create and save recipes. Filters and orders.
- ▶ Designer at Pehuen Consulting, Pehuen Studio sector. Making prints for clients in China and Europe, carrying out administrative tasks and organization. Teamwork. Trend drop and color palettes.
- ▶ Freelance designer. Development of prints, illustrations and branding for different brands.

Technologies and software

- ▶ Javascript ▶ Html ▶ Redux ▶ PostgreSQL ▶ Git
- ▶ Java ▶ Css ▶ Express ▶ Illustrator ▶ MySQL
- ▶ Node JS ▶ React.js ▶ Sequelize ▶ Photoshop ▶ In design
- ▶ Visual Studio Code ▶ Spring tool suite ▶ Bootstrap
